To watch over the entire process and to collect the blood, the company nurse, facility team, HR team together with the clerk and PRC Tanauan Team were put in charge. The company had also arranged for a resting area for anyone who felt dizzy and sick after donating blood.

The company completed a total of 40 successful donors for this activity. A total of 44 participants was gathered, but 4 employees did not pass the qualification needed for a blood donor. Those are because of low level of hemoglobin, with monthly period and with antibiotic taken.

After the completion of blood donation at 4:30 o'clock in the afternoon, the staffs thanked and appreciated everyone present in the drive.

The day ended with the picture taking together with the staffs, donors and PRC team holding the certificate given by the Philippine Red Cross as Bandai Wireharness Philippines, Inc. completed the Blood Donation Program.
